

Coronavirus (COVID-19)

The health and safety of our employees and customers is a top priority at PFI Rubbish Service. While our drivers will be out in the community, we thank you for your help and patience.

Driver Health & Safety.

In order to keep our drivers healthy and on the road, you can help by remembering the following guidelines:

By properly setting out your cart our automated truck drivers will not need to handle your carts, decreasing the chance of exposure to and spreading the virus.

Carts should be spaced with 3 feet between them and clear of any obstructions.

All rubbish must be in bags, tied at the top and placed out by 7am on your day of service.

We appreciate you wiping the handles of your carts with disinfectant wipes, especially for those serviced by our manual trucks.

Customer Service.

Our office is open. Our customer service representatives will continue to answer inquiries from our customers.

Mahalo for your cooperation. Stay safe & Healthy.
